Subject: RE: facility use policy

Yeah, your first three comments are on language that was already in the policy and makers marker was allowed use before I ever came, so I just kept letting them, even though it did not comply with the language.

Subject: RE: facility use policy

Quick glance:

- Item #6 – where does the Maker's Market fall, in the not for profit (5a) or is this language "profit-making groups or for profit-making purposes" intended to include them? I will not support any policy that excludes that group.
- Restriction on Use – The language about weekends, again, same objection as above. Also, how might this impact the Easter Bunny and Santa?
- Solicitation – same questions as above.
- No animals? Would this exclude the Humane Society (or whatever the current/future group may be called) from the events they've held on our grounds in years past? They've had some successful fundraisers, and I wouldn't want to prohibit those opportunities, as I expect that could be another reason to ask us for a larger contribution.

Subject: facility use policy

Please see a draft of the proposed facility use policy. David, I'm sure you will have some changes to make. I took the City's ordinance and incorporated some restrictions y'all had discussed with me you wanted included. The changes are in red. Please let me know your comments so David and I can have a final draft for you to approve at the meeting on Monday. Thanks.
